

CHRISTMAS HACKS

Christmas is one of the most festive times of the year, but with all of the hustle and bustle, it's easy to get overwhelmed. Here are some simple lifehacks to help reduce the stress and enjoy the season!

CENTER OF ATTENTION

Want an eye-catching centerpiece but don't have enough materials? No problem! Just place a toilet paper or paper towel tube in the middle of a glass vase and fill the outer edges with ornaments.

WATT'S UP?

Tired of the same old same old when it comes to your Christmas tree? Bring a little magic to O Tannenbaum this year by using two different sizes of lights.

THAT'S A WRAP

Do you end the holidays with several rolls of half-used wrapping paper? Instead of shoving them under the bed or putting them in a box in the garage where they can get damaged, store them in a garment bag hung up in a closet. It will keep them safe while saving you space!

WORRY-FREE WREATH

Have a metal door? Or a wooden one that you don't want to hammer a nail in? Don't worry. You can still welcome guests with a festive holiday wreath. Simply place an upside-down adhesive Command hook on the inside of the door to hang your wreath from the other side.

ACE THE ICING

Decorating cookies is a fun holiday tradition enjoyed by many. Make bringing your Christmas trees, snowflakes, and gingerbread men to life even easier by placing the icing in squeezable plastic bottles.
